

Turn ideas into rights that last.

Attorney accountability with the speed of secure AI assistance

Beyond filing. We design the next move.

Patentwith is a Korean IP law firm handling patents, trademarks, designs, disputes and international filings. We align filing scope and timing with product launches, investment milestones and target markets.

- Direct attorney consultation and case handling
- AI-assisted analysis and document preparation
- Korean, PCT and foreign filing coordination
- IP-R&D, dispute and commercialization strategy

One strategy across the IP lifecycle.

01

Patents & utility models

Prior-art review, drafting, prosecution and portfolio planning

02

Trademarks & designs

Clearance, filing and protection for brands, products and interfaces

03

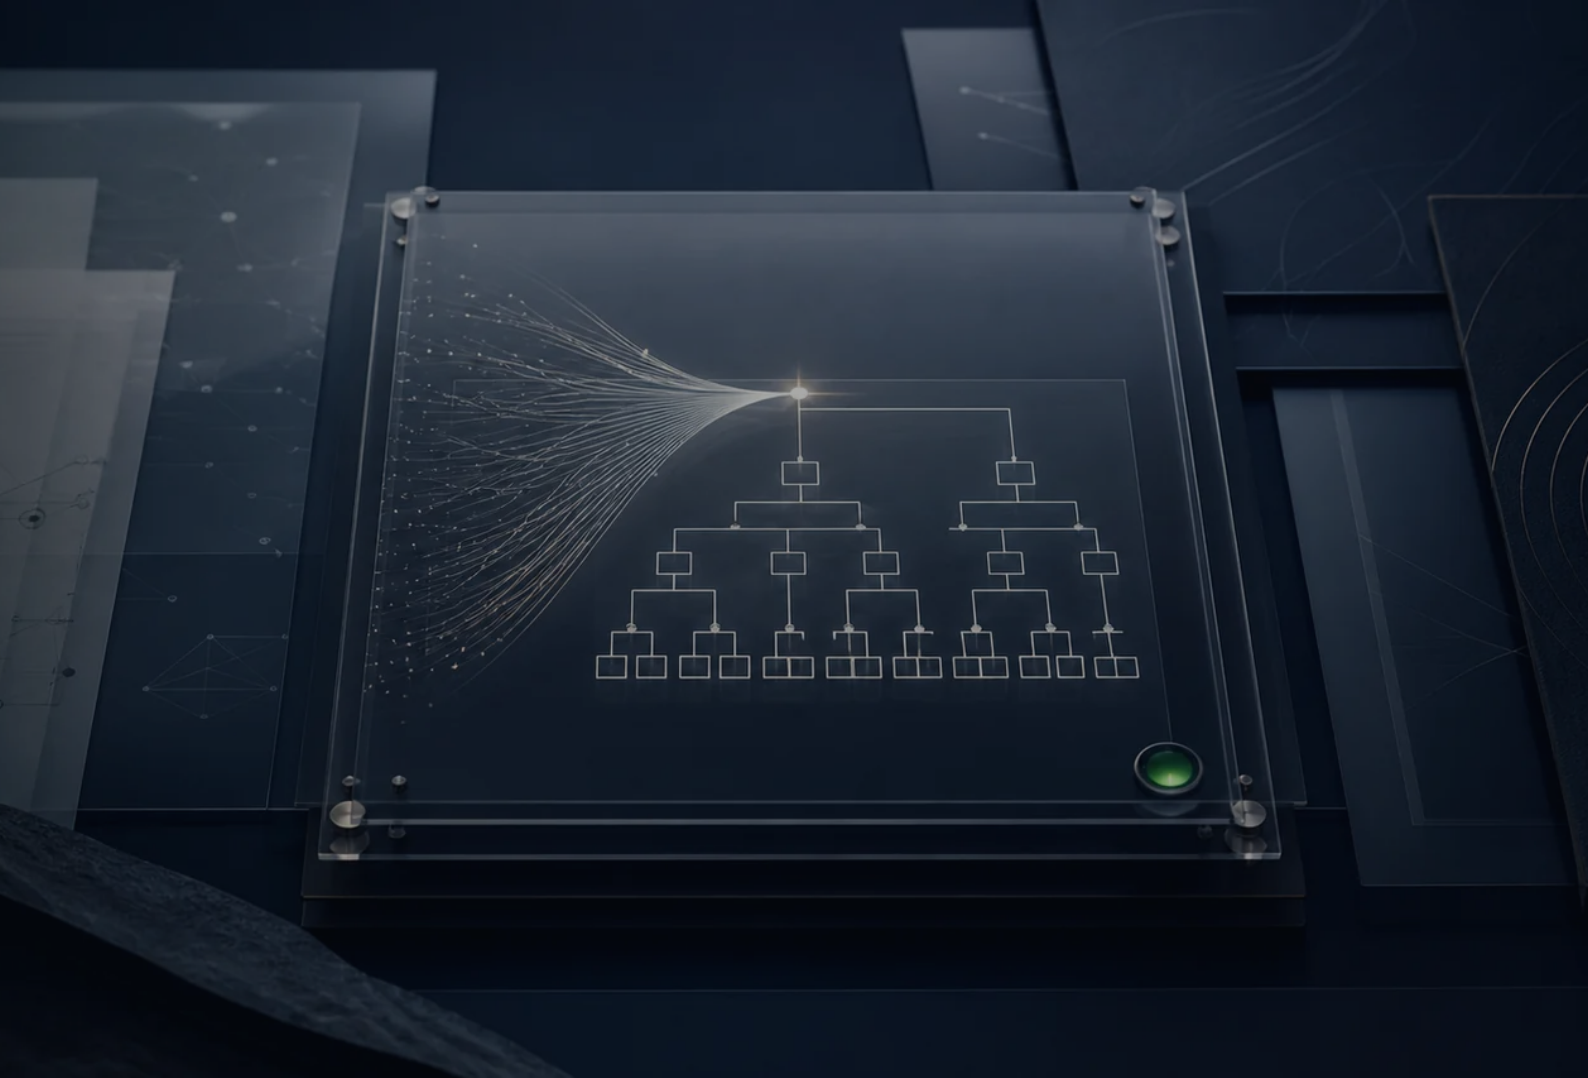

Global filings

PCT and foreign deadlines coordinated with local counsel

04

Disputes & IP strategy

Risk review, enforcement, IP-R&D and commercialization planning

HOW WE WORK

Understand the technology. Engineer the rights.

- 01 Confirm business goals and disclosure timing.
- 02 Structure prior art and differentiating elements.
- 03 Use AI to support analysis and drafting.
- 04 Attorney reviews the final strategy and documents.
- 05 Manage filing deadlines and prosecution.

LEAD ATTORNEY

Led personally by Jeon Seungyeol.

54th-class Korean patent attorney · UNIST alumnus
in Chemical Engineering and Energy Engineering ·
Representative of Delightflow Inc. His focus is
startup patent strategy and AI-assisted IP services.

PATENTWITH

AI assists securely. The attorney remains accountable.

Patent analysis and drafting are performed on Google Cloud Vertex AI enterprise infrastructure. Customer input is not used to train foundation models, and a patent attorney conducts the final review.

- Google Cloud Vertex AI Enterprise
- No training on customer data
- Korean region processing
- Confidentiality under Article 23 of the Patent Attorney Act

Start with a concise, confidential conversation.

Detailed invention disclosure is not required for the first contact. Tell us briefly about the technology field, brand or target market.
